To Whom it May Concern:

We have now been in our new addition for a little over three months, and love every inch of it! We have an incredible youth room that has allowed for the expansion of their ministries and events along with a wonderful administration area that has brought staff out of closets and into an environment where camaraderie can flourish. Yes, space was designed and built for those specific areas, but all ministries benefit now from the additional space it created.

The team of Kurt Williams, Bryan Crostreet, and Mark Smith from T&W Church Solutions pulled it all together for us. They worked hard to assess and meet our needs in this addition, and we watched as they had our best interests in mind in every step of the process. The skills and experience that they brought to the table resulted in a space that is loved and well used.

We are very grateful that God placed T&W in our path for this project and look forward to working with this team again in the future!

Sincerely,

Stephanie Keen
Building Committee Member
