To whom it may concern:

T & W helped turn our dreams into reality! When we were provided funds to renovate our lobby to foster greater hospitality and connection with the addition of a café and new restrooms, we selected T & W to help our ideas become actualities. Their designers and builders understood not only the *what* behind our project, but also the *why* and took care to work with us throughout the entire process—even helping us finish *under* budget! Today our new space is accomplishing exactly what we intended! Thanks to T & W for partnering with us to build a more impactful church!

With gratitude,

Jeff Unruh

Pastor of Operations
