RE: Plainfield Campus Renovation

Another successful TPCC project – and in the midst of COVID related supply chain issues and rising material prices! We can't thank the T&W team enough for delivering a building renovation that ticks all the boxes for a successful experience ... and a beautiful transformation of an old grocery store into our latest campus.

As with all renovation projects – especially those of older buildings - surprises pop-up along the way as pre-existing conditions are exposed. Due to T&W's experience and attention to detail from start to finish, those issues were minimized and quickly resolved. The design and build team members brought solution options that were both efficient and cost effective and walked our team through the best solutions.

T&W's project management team for this campus –Project Manager Jake Dellinger and Project Superintendent Bruce Crostreet – were both professional and personable going the extra mile in so many ways to meet our expectations and deadlines.

T&W is truly a partner that has walked along side our church through several projects, both large and small. We trust them implicitly and recommend them whole heartedly.

Cynthia Meskauskas, Project Manager  
Representing TPCC Design/Build Team
