

LIFE BUILDING Education & Spiritual Growth
Traders Point Christian Academy

June 26, 2007

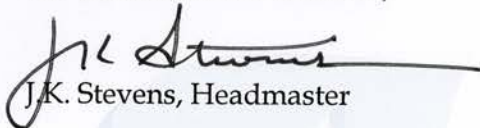

To Whom It May Concern:

It has been our pleasure to work with T&W Church Solutions in the completion of a new K-8 facility for Traders Point Christian Academy. From day one Kurt Williams and Steve Shehorn have been our advocates as well as our project managers in building an efficient and functional building. Our new facilities are a perfect fit for our school and make wonderful first impressions on our guests.

We want others to know that T&W understands the details of good construction and keeps the goal of a high-quality finished project in mind at every step. They worked hard upfront to understand our mission and delivered a building to us that will help us reach our goals. Their commitment and hard work for our school speaks volumes about their knowledge of construction, their work ethic and their relationship with their customers.

I think the greatest compliment we can give this wonderful organization is that we would build with them again at any time!

For the sake of our children,

J.K. Stevens, Headmaster
