To Whom It May Concern:

It is my pleasure to write this letter of recommendation on behalf of T&W Corporation. Over the course of the past year, we have worked closely with T&W as they helped us complete construction of a new urgent care medical facility on the south side of Indianapolis.

T&W was wonderful to work with from the initial design stages through project completion  they helped us build a quality building at a great price and they were able to do it in the timeframe that we had originally agreed upon. They stayed on schedule and on budget and we have been extremely pleased with the results. We now get compliments daily from our patients on how great the building looks.

We worked closely with both Craig VanCuren and Steve Shehorn, our project superintendent and project manager respectively. Both did a great job of keeping us up to speed on the day to day operations at the site. They were easily accessible and easy to communicate with whenever questions came up. They were able to keep the project moving in a timely matter and were responsible for insuring that the project was completed on time. When hiccups occurred or changes were needed, they were always there to make sure things were being done correctly. They also did a great job of making sure we were getting high quality at a good price from all of the subcontractors.

We had a great experience with T&W and have no reservations recommending them. We would definitely use them again.

Sincerely,

Roland James, Owner
Indiana Immediate Care
