Dear Kurt,

I am writing to thank T&W for the great work on our project to expand and improve our campus to support our growing school, children's ministry, and youth ministry. We found T&W through trusted Christian organizations and were very impressed with your work from the outset through to project completion.

Discovery, design, and construction are arduous processes and we have been pleased in each phase in the support we received from T&W. We feel very connected to you, to our Program Manager, and to our Site Superintendent. All have been genuinely interested in discovering and meeting our needs and getting the job done right.

We are very excited about the final product. It is so gratifying to see what we envisioned coming to life as we move through the initial year of occupancy.

Thank you again,

Sincerely,

Reed M. Adams
