

**CITY OF GOD
CHURCH**

LETTER OF REFERENCE

From the beginning, our partnership with T&W Church Solutions was an absolute win. Kurt Williams was with us as we toured the property to consider purchasing it and all the way through to our opening. The process was transparent from day one and communication was excellent. It was obvious the desire and heart of T&W to serve the City of God Church in the renovation process. Chuck Aker and Terry Krantz were always available to discuss potential roadblocks and changes to the project. Both brought a wealth of experience with construction and construction management and were willing to share ideas and guide us. Their contractors were aligned with the mission and worked diligently in their areas. We highly recommend T&W Church Solutions and will work with them again with any renovation or construction project for City of God Church.
